# Crunk For Christ Radio

**Crunk 4 Christ Radio** is the Hottest Inspirational Radio network in the nation. With a strong desire to bring more exposure to Holy Hip Hop, and Rhythm & Praise, we offer the hottest music 24 hours a day, 7 days a week.

**OUR MISSION:** We are in a time now, where our youth and young adults are in trouble. They are seeking role models; but many of the artists they have attached themselves to are not always positive influences. A large majority of secular Hip Hop and Rap Artists fail to realize that their conduct is just as important as their music. A large amount of these artists are being arrested, breaking the law, doing drugs and promoting sex. Our young people are in trouble, and we are giving them a positive alternative. We have a desire to uniquely change the way that people see and hear the church. We feel we can change lives through positive radio, television, and internet.

**OUR METHOD:** Now with a live interactive studio audience, It is our goal to reach our listeners with shows that will entertain and minister at the same exact time. With 79% of our listeners being between the ages of 12-36 years old, we have effectively captured our audience with shows that are fun, entertaining, and educational. We are proud to have successfully retained our target audience while building a desire for our brand. Our music at Crunk For Christ Radio is the best in Holy Hip Hop, Rhythm & Praise, and a little Taste of Tradition. With artists like Lecrae and Canton Jones bringing more attention to Holy Hip Hop, we have become a major source to people in search of positive radio and great sounding music.

Crunk For Christ Radio understands there are many relevant issues in the Christian Community that many networks will not address, our network is not afraid to tackle any subject that can bring deliverance to our listeners.
